

We do, every day, what most organizations experience only once every 10 years.

Large-scale facilities relocation is complex and involves significant risks. Who can you trust when so much is at stake?

You can trust Management Alternatives to manage that risk. Management Alternatives provides the best strategic and tactical change management solutions. No one matches our ability to disassemble and reassemble an organization with minimal disruption—and minimal risk.

For 20 years, Management Alternatives' professionals, working in teams that deliver unmatched expertise, have successfully managed relocation risk. Our unique combination of Relocation Planning and Management, Churn Management, Furniture Services and Vendor Coordination lets you focus on the business of your business. We handle everything else.

Using processes developed from the experience of over 300 relocations nationwide—in excess of 20 million square feet—Management Alternatives' experts ensure that your business operations continue uninterrupted.

We leave nothing to chance, enabling you to maintain normal business-focused operations.

Our commitment is to ensure maximum control over complex facilities logistics projects. Our key differentiators are our experience and insight. Together, they allow us to anticipate and avoid costly mistakes that lead to catastrophic business interruption. We do whatever it takes to meet our commitment, and our clients return again and again.
